

PW-25

Pipe Welder

The ProArc pipe welder is designed specifically for joining pipes at a vertical angle. It comes with an intelligent control system that automatically adjusts the welding linear speed according to the specific application needs. This feature makes automatic pipe and saddle welding an ideal solution for industries such as construction, oil and gas, and plumbing.

Features

- Intuitive graphical user interface
- Support for pipe welding and saddle welding applications
- Precise control of rise and fall contour
- Automatic conversion between pipe diameter, rotational speed and linear speed
- Adjusting units for precise torch positioning

Model	Unit	PW-25	PW-150
Power input		1Ø 100~240VAC 50/60Hz	
Torch stroke (D)	mm	75	
Rise and fall range	mm	25	150
Rotation speed	rpm	A:0.3~4 C:0.8~12	B:0.6~8 D:1~16
Dimension (A x B x C)	mm	470 x 715 x 245	
Weight	kg	38	45
